

**BILLIONAIRE
ZOMBIES CLUB**

WHITEPAPER

We Understood the Assignment.

1. INTRODUCTION

The Billionaire Zombies Club is creating a metaverse built upon an ecosystem of NFT gaming characters, items and tokens. The Billionaire Zombies Club started as a collection of 10,000 ERC-721 generative art profile picture (PFP) NFTs on the Polygon Network. Tokenizing allows future minting, as well as gameplay experiences and rewards within our BZC ecosystem to use the \$BZC utility tokens.

The One development team brings to life- art in a 3D metaverse social Game environment. This Universe is scalable and efficient, powered by its own polygon \$BZC token and governed by the Billionaire Zombies Club DAO, LLC. A Wyoming DAO (Decentralized Autonomous Organization).

2. DEVELOPMENT ROADMAP

On November 13, 2021, the BZC Roadmap was published in the official Discord #roadmap channel.

BILLIONAIRE ZOMBIES CLUB DEVELOPMENT ROADMAP

The DAO has been registered, Trademarks filed, the token has been launched, the community and brand are growing, and the Metaverse game is in development. The Roadmap has been on track with aggressive milestones being achieved each week.

4. BZC METAVERSE NFT ECOSYSTEM

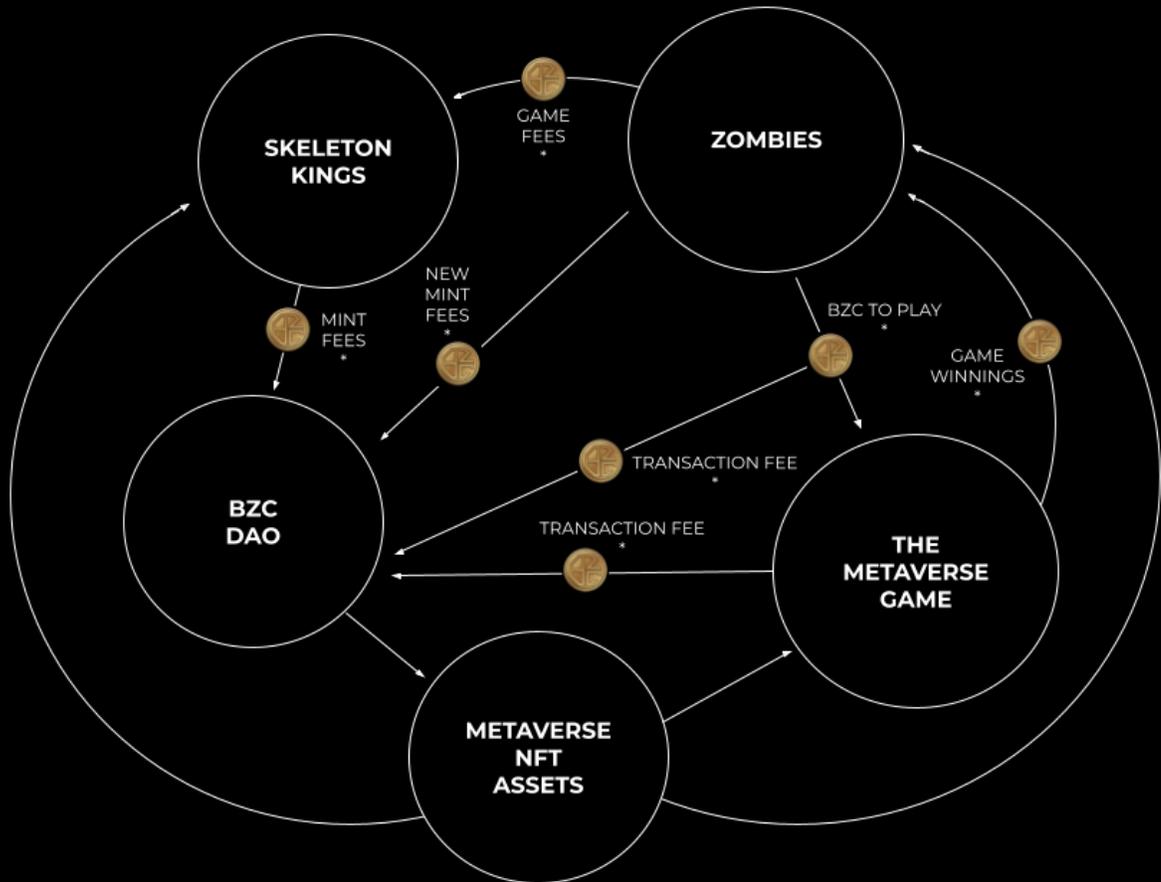

The Billionaire Zombies Club Ecosystem is a Play to Earn Metaverse game that was spawned from the original 10k PFP Mint. In order to have a fair launch, the One Dev team used the original 10k zombie collection as recipients for our Genesis token drop and gifted the community additional drops of NFTs. The intention of these drops is to reward community contributors, early believers in the project, our HODLers, and community members to reward them for their energy, talents and value to the project.

Building a parallel system for records and accounts of both BZC balances and NFT's being brought to life in our metaverse ALONGSIDE the Game allows us to develop and implement quickly without compromising security to the treasury or community. Game interactions will be blockchain facilitated peer to peer engagements with additional reward pools created by treasury. By allowing our users to mint ecosystem NFT's in \$BZC we bring immediate utility and value across our ecosystem.

5. BZC TOKENOMICS

\$BZC TOKENOMICS UTILITY TOKENS FOR THE GAME

* FUTURE PRICING, TOKEN MECHANICS, AND FUNCTIONS TO BE SET BY DAO GOVERNANCE VOTING AT THE KINGS COUNCIL MEETING.
1 SKELETON KING = 1 VOTE

Ecosystem may mint through the BillionaireZombies.com new Metaverse assets with \$BZC tokens. In the Metaverse game these assets can be used by their owners. In One on One format, the Zombies enter a smart contract interaction within the game where they both stake into the reward pool with a winner-take-all format. In Multiplayer game fees will be paid to Skeleton Kings who run a smart contract based liquidity pool to pay out algorithmically based on winners. The DAO may add additional reward pools or distribute based on approval vote in the DAO. This keeps a game glitch or compromise from draining the treasury by only having smart contract interaction with reward pools. The DAO treasury continues to be powered by new mint fees and transaction fees from every interaction in game or anywhere else they are used.

6. BZC METaverse

The BZC Metaverse is a game that is built around NFTs and powered by the \$BZC utility token.

- **BZC Skeleton Keys**

BZC Skeleton Keys are a VIP membership pass for the Billionaire Zombies Club. The Keys grant the permanent and exclusive ability to mint Skeleton Kings. Registered owners may apply for Physical Cards tied to their NFT with future utility TBA.

- **BZC MetaCrystals**

BZC MetaCrystals were a free airdrop to all 10,000 Zombies in the Billionaire Zombies Club and used as a one time access pass to mint random BZC Metaverse assets. These are 3D assets that will be used in the Metaverse -real estate, vehicles, boosts and more.

- **BZC Metaverse Mint Portal**

On Dec 7, 2021, the [BillionaireZombies.com portal](https://BillionaireZombies.com) opened, officially creating the first virtual assets for the BZC Metaverse. To mint a BZC Metaverse asset in our initial mint, the BZC holder burns a MetaCrystal as a pass to mint a random asset for 100 \$BZC. The MetaCrystal is burnt, 100 \$BZC tokens are deposited in the DAO Treasury, and the random asset is generated and delivered to the user's wallet, under a fair launch.

Metaverse Item	Drop Percentage
BZC Steed	10.00%
BZC Mansion	1.50%
BZC Health	30.00%
BZC Token Boost x3	5.00%
BZC Token Boost x2	10.00%
BZC Token Boost x1.5	15.00%
BZC Castle	0.25%
BZC Weapon	23.25%
BZC Vehicle	5.00%

- **Fair Launch**

The BZC Metaverse Mint was built with fairness in mind. The items were generated using a random function with the above drop percentages, giving each individual mint an equal chance to a rare item. By utilizing a novel two step mint flow, the fairness of rarity was not compromised even for the advanced scripts available at time of mint.

- **BZC Skeleton King Mint Portal**

On December 15, 2021, the minting portal for Skeleton Kings will open. Skeleton Kings will have random rarity traits and are voting members of the DAO. Each Skeleton King gets one vote per King at each Skeleton Kings Council meeting. Skeleton Kings may also assist in creating multiplayer game experiences. The first iteration of the Metaverse game experience is targeted for release in early 2022.

7. THE KINGS COUNCIL

The Kings Council will be initiated through our first Skeleton King mint. From December 15, 2021 to December 30th, 2021. BZC Skeleton Key holders will be able to mint One King per One Key at a cost of 250,000 \$BZC. Users should be careful of buying BZC Skeleton Keys on the secondary market without checking to see if the Key has already been used to mint a Skeleton King in this opening cycle. Skeleton Keys that have been used to mint a Skeleton King will be upgraded from a 2D Skeleton Key Card to a 3D Skeleton Key Card.

On December 30th, 2021, Minting of Kings will temporarily close until the Kings Council meeting on January 10th, 2022.

One Time Mint Requirements

One King per One Key
250,000 \$BZC Minting Fee

On January 10th, the opening council meeting will set the price for future minting of Skeleton Kings. We will vote initially on four prices to reopen the Skeleton King Minting:

- 100,000 \$BZC
- 250,000 \$BZC
- 500,000 \$BZC
- 1,000,000 \$BZC

January 15th, 2022 The Skeleton Kings will begin minting again at the new price.

Skeleton King Mint Requirements

One Skeleton Key
\$BZC Minting Fee TBD by DAO

Voting in Skeleton King Council meetings will focus on further treasury and pricing mechanics related to the DAO's growing ecosystem as well as decisions related to expanding membership into the DAO.
